Home of the Bedford Flag

The Bedford Flag, commissioned to Cornet John Page in 1737 by King George II of England, was carried by his son, Nathaniel, who fought with the Bedford Minutemen at the Battle of Concord Bridge, April 19, 1775.

WITH LOVING HEARTS

"There weren't many things that Mrs. Milligan did not know about Bedford High School. It's hard to imagine the number and variety of questions that crossed that counter in the Student Office, but Mrs. Milligan had answers for them all. She held herself to an uncompromising standard. She tamed the information monster and managed the office menagerie with skill and quiet strength. Her quiet humility made her capacity for detail and organization an almost unnoticed commodity- but a priceless one at that.

There weren't many things that Mrs. Milligan did not know about Bedford High School. She knew the kids. She knew whose parent was sick, and who, after graduating, was living with whom; who was pregnant and who went to which university. She was an encyclopedia of absence excuses. She took it all in, day after day, week after week, year after year. She knew virtually every student's name, and their knowing that she knew made their interaction with the office especially personal. Yet with all that knowledge, there was never a question of anyone's confidentiality being compromised. Mrs. Milligan was a woman of immeasurable honesty, caring and integrity.

As a private person, Mrs. Milligan may not have been well known by many, but those of us who knew her were lucky to have our lives decorated with the Milliganisms that we came to know and love: her passion for hummus and her fabulous homemade soups; her talent with fabric and yarn, her impeccable taste; and above all, her love of family, her husband, and her motherly pride. She was a generous heart who always gave. She gave when she was sick as well as when she was well. She was the voice of BHS for almost two decades. She was our Mrs. M, and we miss her dearly."

MESSAGES

Our theme this year, **Vivid**, expresses our feelings about our school. **Vivid** shows our diversity, victories, failures, hopes, fears, and everything in between. Through the **vi** words, we describe the achievements and spirit of the students. The paint splatters illustrate each person's unique personality in the school. We hope you enjoy this yearbook as much as we've enjoyed putting it together. We have thought about the students on every page and did our best to represent BHS. Years from now, this book will remind you of your high school days just as **vividly** as you know them now.

Q&A

This past summer I went to Trinidad on a mission trip. I spent a week running a VBS (Vacation Bible School), visiting an orphanage and rehabilitation center, doing construction work, and learning about the Trinidadian culture. I did similar work in eighth grade, so it was interesting to see what was different from my last trip. My time spent serving was humbling and I loved playing games with the kids and singing silly songs. One of the highlights of the trip was visiting an orphanage. What an incredible opportunity! I still marvel at the joy those kids have. At first, many were shy, but they soon warmed up and did not hesitate to point out every foreign characteristic each team member possessed. Also, I really enjoyed the Trinidadian worship. They had a steel-pan drum band, which was amazing. The Trinidadian people live so vibrantly and when we greeted one another during the service, strangers were embracing strangers. No judgment or assumptions were made, it was all genuine friendliness. Finally, Trinidad was a great reminder to slow down. In their culture, life is not run by a tight schedule that consumes many Americans. Instead, they relish in "limin", their term for relaxing. So my advice to everyone is to "lime." :)

Q&A

What was school like in Africa?

"I went to a French school in N'Djamena, the capital city of Chad, in central Africa. The main difference is that in my school there, French is taught as the main language, just like English is taught here. We do not have a lot of extra-curriculars, no music, art, or drama. It is not technologically advanced, so while there are some computers, they are not in every room, and there are no white boards or smartboards."

Why do you move back and forth between Africa and Bedford?

"My parents' jobs in Chad involve partnership development, which means that every three or four years we have to move back to the United States and then people start our work there."

Is there something they taught at school in Chad that they don't teach here in Bedford?

"The French school system seems to put a much larger emphasis on history and geography, while the American system seems to put a larger relative emphasis on math and science."

Q & A

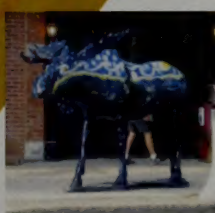

Connor Maurice is a freshman who traveled to Italy for summer vacation. His family swapped houses with an Italian family that lived in Florence. Connor traveled to Rome, Florence, Pisa (left, he is helping to support the Leaning Tower), Lucca, Venice, and Sienna. He mentioned Venice as one of his favorite destinations because "there are no cars, but there are canals all over. Everyone travels by boat." Connor said that Sienna was one of the prettiest places he visited. He sampled many different kinds of food like pizza, pasta, and Florentine Steak. Florentine Steak is a huge steak that is cooked seven minutes on each side. Connor said this was one of his favorite meals. He also mentioned that in Venice they have really good seafood and that the gelato there is really delightful.

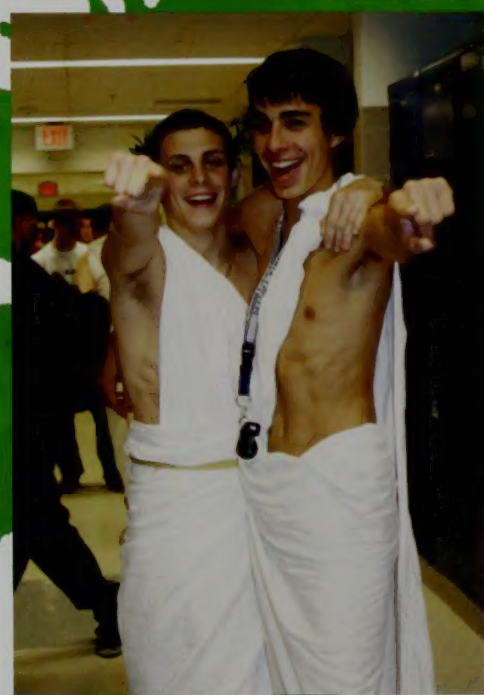

Q & A

Over the summer Apple Seibert and her two sisters, Maddie and Lizzie, went on an 180-mile bike trip to Greenfield NY, near Saratoga Springs. On all trips there are ups and downs. The best part according to Apple was "having sing-alongs while biking through the mountains". Maddie and Lizzie agreed that breakfast was the best part, especially "in all the cool diners". The worst part was "getting up early" because "every day was so completely exhausting" agreed Maddie and Lizzie. Apple on the other hand thought that the worst part was "biking through the mountains when there are no bathrooms in the near vicinity." One of the most interesting things was a town they stayed in called Bennington, Vermont. The town's official mascot is a moose. Around the town are life-sized moose painted in different and creative ways. "They gave out town maps with all of the moose locations on them. It was pretty awesome" said Apple. When the trio would stop for a break, they would sometimes rest at gas stations and it was there that they met some interesting people. "We met a lot of friendly gas station people who let us use their bathrooms. People have a lot of sympathy for you when you've been riding your bike for more than 4 hours."

Some interesting facts:

- Even if you drink 5 gallons of Gatorade, your sweat does not turn blue.
- It's impossible to find a bathroom in the Green Mountains.
- Scenery is much more enjoyable when you don't have to pee.
- Bike shorts have a much bigger purpose than just making you look intense. Although, they are very fierce."

The night of graduation, while the seniors are off celebrating the end of high school, the juniors head out to the track. There, a paint war of epic proportions ensues. Paint flies through the air, and lands everywhere. Filled with excitement and adrenaline, the new seniors smear paint on themselves and each other. They can't always tell who the person beside them is, but they don't care. It's a celebration of a new reign of seniors. The next day at school they walk the halls proudly, still covered in paint from the night before. It doesn't matter that the paint itches and it's awful to get out of their hair. It's a sign that they ...

"It is hard to believe that we are here, graduating from Bedford High. Many of us have been together since kindergarten, and others are brand new, but regardless, we are going through this amazing and life-changing experience together! I am so proud to be part of the class of 2011, and I wish everyone the best of luck as we step out into the world together. Although it is hard to believe that the end of our time at BHS is here, I know we are all ready to enter into the next chapter of our lives."

FUTURE PLANS

I want to go to George Mason University because its very close to where I used to live. I know some of my close friends are going there, and it offers good classes in subjects I am interested in studying.

- Nathan Jibilian

Barnard is a small liberal arts college but it's in a city unlike most small liberal arts colleges. It's also affiliated with Columbia University so I have access to a large university and I can take classes at both schools. Also, Barnard has a strong English department with lots of creative writing classes.

- Hilana Ezekiel

After my first tour of Clark University I knew this was the school for me. The Clarkies are really friendly and love to be active in the community. They do a great amount of community service both in Worcester and around the world, which is something I want to be involved with in the coming years. The whole atmosphere at Clark is exactly what I want in a school. I couldn't be happier with my choice of going to Clark next year.

- Jess Doucette

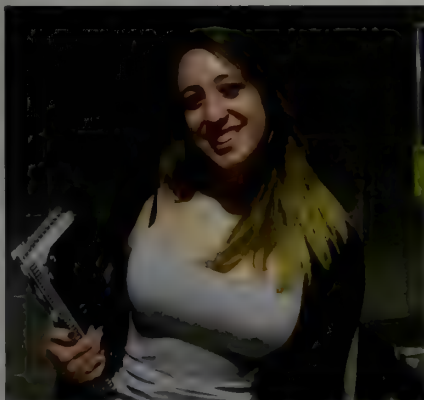

I am going to Middlesex for a year and then hopefully transferring to Coastal Carolina. I chose to go to Middlesex so I could get my grades up and go to a better school that I have always wanted to go to.

- Gabby Busa

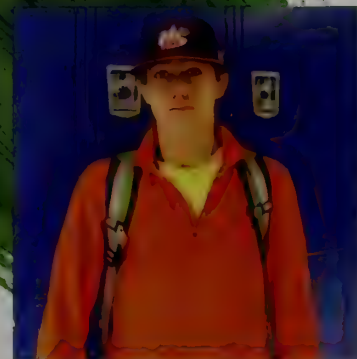

I am going to Endicott College and I plan on majoring in Elementary Education and minoring in Special Education. I chose Endicott because the campus is absolutely gorgeous, the students & faculty are so friendly, and they offer amazing internships starting as early as freshman year.

- Erica Hamilton

I have decided to attend Wake Forest University Institute. I fell in love with WFI and its campus while attending a summer program there the summer before my junior year. All the students and teachers I met were so friendly and helpful! I knew that I would fit in perfectly. Every time I go to visit I feel like I just belong at WFI!

- Lucine Bahtiarian

I chose University of New Hampshire for the college I want to go to because I love the area in Durham NH and they had the programs I really wanted to get into. It's a five year masters program for Occupational Therapy and they had the option for Dance as a minor. I can't wait to go!

- Jacob Cohen

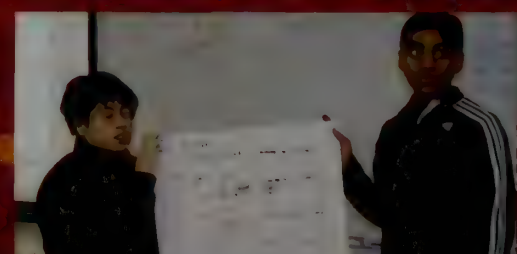

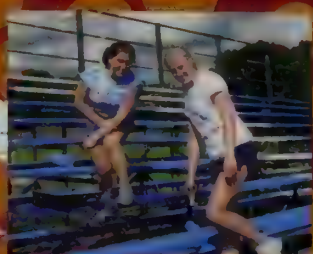

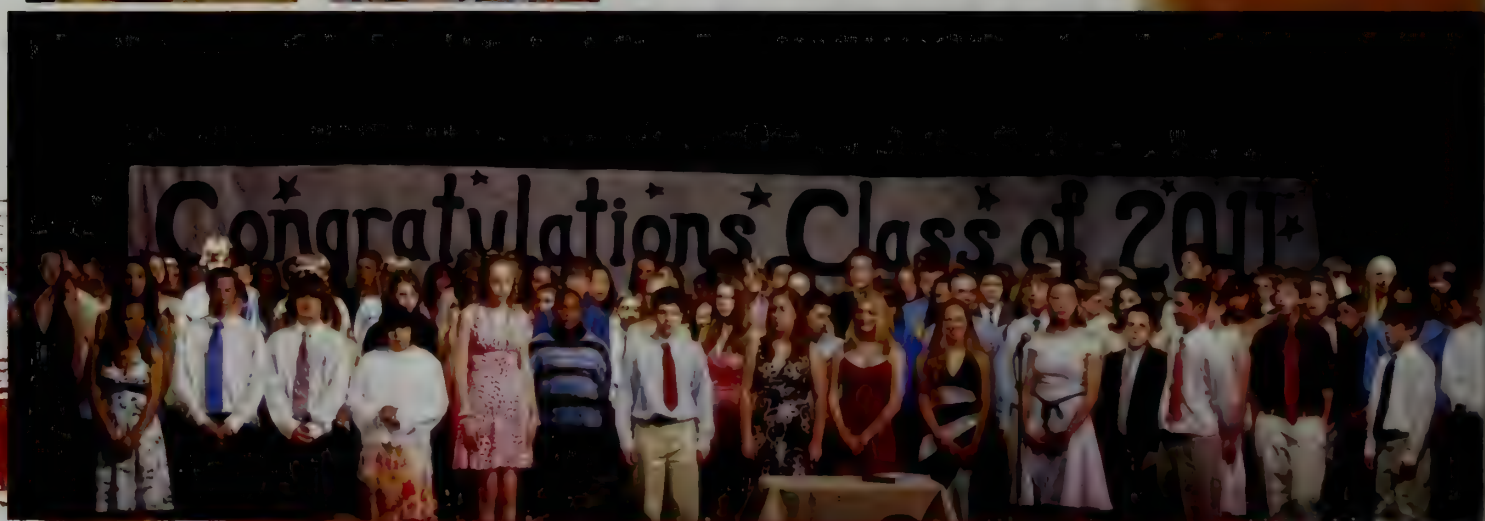

Franklin and Marshall is a small liberal arts college just outside of Lancaster, PA. When I first stepped on campus, I kinda got a feeling that this is where I want to be for the next four years. Baseball also attracted me to the school. After one recruiting weekend on campus this fall, I knew I wanted to be a Diplomat.

"The Fearless '14,

This year we've entered a new chapter in our lives. A chapter that many of us were scared to face, yet all of us have made it through successfully! This year was different for you; the environment, the classes, and possibly even you have changed, yourself. High school is a journey all about finding out who you truly are, expressing yourself, and making mistakes. Through this journey, life will throw unexpected challenges; but we are all on this journey together. Let's make this journey a memorable one!

"Together We Stand, Together We Fall, 2014 Has Got It All!"

BEDFORD DAY

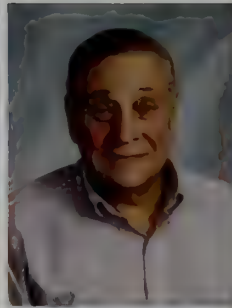

collectivity

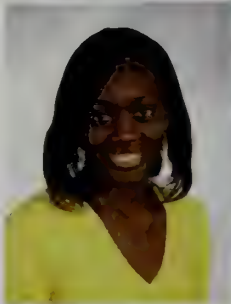

Bedford Day is a celebration of our town. Through the center, a long parade marches, filled with groups ranging in ages from young to old. Those who don't walk fill the sidewalks and cheer on the parade as it marches by. The fun continues at the town center, where a collection of booths raise money for their causes.

Playing on the volleyball team was definitely one of the highlights of this year for me. We did what no other volleyball team before us could do by getting a banner for ourselves and becoming the LEAGUE CHAMPS! I had so much fun and I'm gonna miss all you girls next year! I love BHS volleyball!!!!

The best win of the game...

"The second concord game... not only was it senior night, but it really demonstrated how the team could come together despite a previous loss, and really show every team in the league who we are." - Sally Waters

Team Captain Taylor De La Peña's thoughts on the best win...

"I guess it depends on your definition of 'win,' because I would say our best win would be the senior day game versus Concord-Carlisle. Now technically, if you look at the score, we tied that game, but in every other sense of the word, that was the best win of the season. In that game, more than any other game of the season we were one. We were a team; we were talking, we were supporting one another, we were taking risks and working hard to make up for mistakes. Every single member of the team, even the ones who weren't on the field, gave everything they had during that game. Even though we didn't necessarily get the result we wanted, we 'won' because finally we had realized our potential and come together as we had not before."

believing

Co-Captain Sally Waters on Believing...

"As a small school in the DCL, we go against really tough competitors, so we need to come together as a team; we don't have superstars, so we need to believe that working as a team will get us through. When we stayed together and remembered the strong bonds we had as a team, we did well. If we let ourselves forget the team, and stopped believing we could do it through pure will power and teamwork, we made mistakes."

Captain Michaela Criniti's thoughts on the season...

Q. What was the team's best win of the season?

A. "LS, a big town that has always defeated us and we finally put them in their place."

Q. What was the most intense game of the season?

A. "One C.C. senior night game. So much hard work went into those 80 minutes, we just absolutely shut them down."

Q. How was believing a big part of our success this year?

A. "We went into every game saying we had nothing to lose and to believe in the team. We can accomplish anything if we focus and believe."

How was believing a big part of our success this season?

"Without belief, we would be nothing. We believed in ourself and in each other; being part of the soccer team means knowing that you are going to make mistakes. You know that these mistakes could be costly, but also that your teammates will always be there to console you, back you up, and make up for your mistakes."

~ Taylor De La Pena

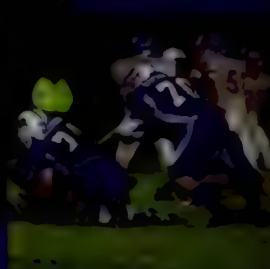

FOOTBALL

"Achieving to play every down hard, and leaving it all on the field. To have goals and to use those goals as motivation for the whole team."

Demetrius Steed

Senior Captain Demetrius Steed's thoughts on the season...

Q. What was the team's best win of the season?

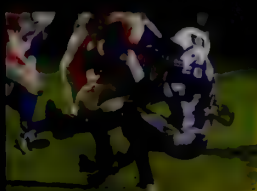

A. "The best win was our game against Arlington WE pulled together as a team. Fought right down to the last minute due to a game ending interception by Taylor Davidson."

Q. What was the most intense game of the season?

A. "Due to the rivalry between C.C. and Bakersfield. That was a home game and from seeing all the seniors."

INDOOR TRACK

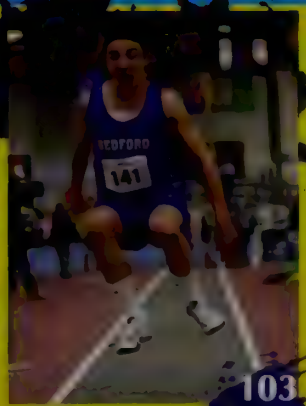

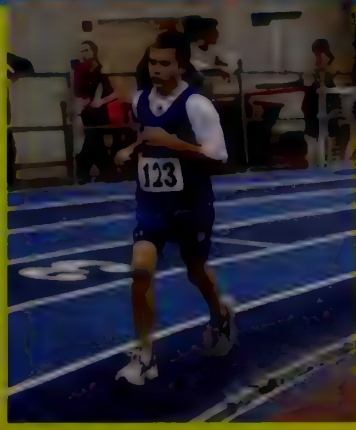

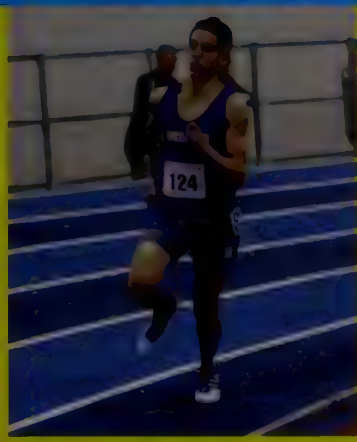

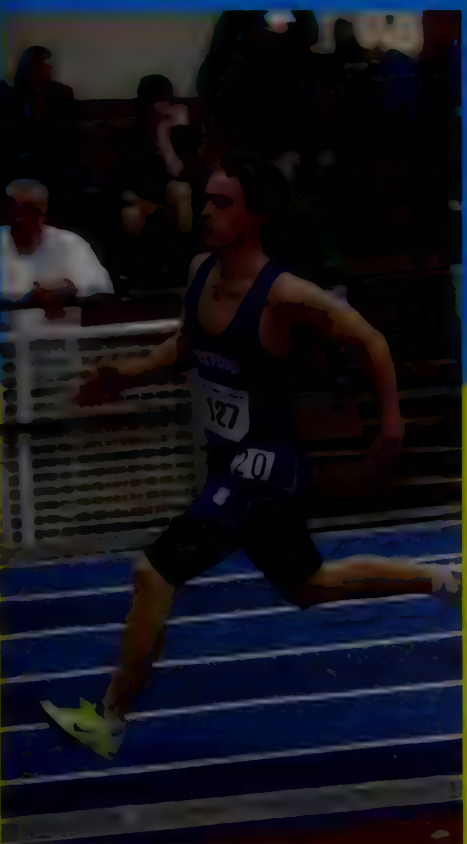

Moving

Q. How does moving relate to indoor track?

A. The track team was never standing still, whether we were doing ABC's or laps at Reggie Lewis to warm up, we were always moving.

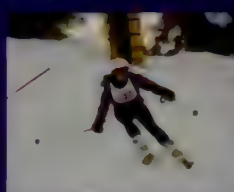

Q. How did this season compare to other years?

A. This year the indoor track had a lot of people break their personal records and qualify for states. A few people even qualified for a special meet that had harder requirements to qualify for than states did. Also this year Marina Boebel won the Division 4 states, and went to all-states where she placed 12th overall.

BHS SUPERSTARS

"We made history this year. It was an amazing thing to see how our hard work and team unity could get us. Walking into the gym and seeing the banner (pictured top left), with our year on it, that's such a proud moment. I am so incredibly proud of us."
- Emily Pietrasik Co-Captain (pictured right)

Rachel Dushman holds onto her division 2 state champion title!

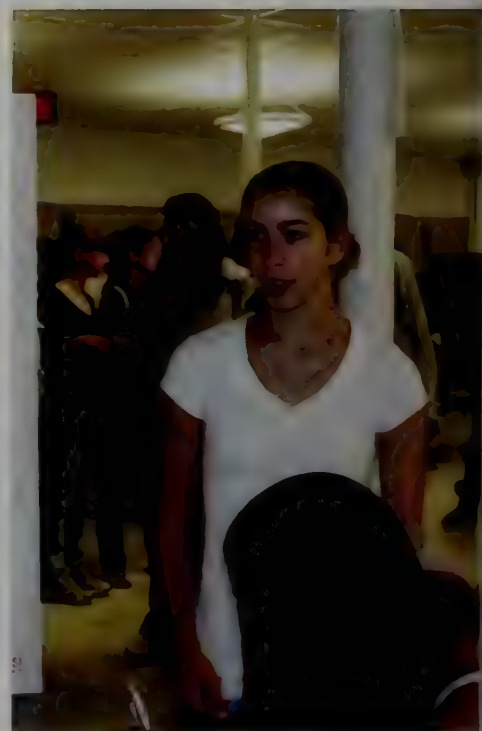

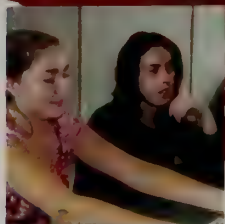

It was an injury freshmen year that introduced me to the sport of diving. Since that point in time, I truly fell in love with the sport as I'd never imagined possible. It provides me with a sense of freedom and exhilaration, as there is no better feeling than learning a new dive and truly perfecting an old one. Being a part of a high school team, making friends, and contributing to the team is a great feeling which has left me with a great sense of accomplishment. Learning to master my fears in diving has helped make me a more secure and confident person in life, and is something I will be forever grateful for. It was through dedication, discipline, and great coaching that I was able to accomplish all the goals I had set for myself in this sport. This year as a senior, I was able to win DCL All-Star for the second time in a row, as well as to become the defending two time MIAA Division 2 State Champion, breaking the BHS 11 dive school record with a score of 489.05 in the process. Winning States for my second time this year, receiving my second consecutive Boston Globe All-Scholastic award, and breaking the BHS record was undeniably the perfect ending to a wonderful four years at BHS, and is something I will carry with me for the rest of my life

Marina Boebel is the new division 4 shot-put champion!

I only started indoor track because I wanted to do something to keep in shape for softball, and for something to do. So I taught myself every thing I know now about shot-put, and trained with my sister. That year I was the only freshman to qualify for states and won DCL All-Star. My sophomore year I qualified for states again, and I placed in the top 6 which qualified me for All-States. Again that year I was awarded with DCL All-Star for being the only indoor track athlete to make All-States. But this year, my junior year, was my most successful year so far. I was tired of having to throw the shot-put outside in the cold and having it get stuck in the snow and my hands freezing. So I purchased my own indoor shot-put. I trained, and worked hard to push myself each practice, and though the season overall wasn't a good one for me, I qualified for a special invitational meet. I then went on and qualified for the next level, which was a special elite meet in which of all 4 divisions only the top 24 qualified for it. Using my new indoor shot-put I worked by myself and trained for states. At the states meet, on my very first throw I threw 36 ft. 3 1/4 inches. This blew my old personal record out of the water and I was able to win Division 4 States. At All-States I placed 12th overall. Winning Division 4 States led to my winning DCL All-Star for the 3rd year in a row.

My eight years at BHS and the LABBB program have provided me with a very different perspective than most students. I have seen the kids I began my school years with graduate and I made friends with a new group several times over. The turning-22 program at LABBB keeps us in high school until 22 and in some ways I saw the school from a teacher's perspective-meeting new great seniors every year. My most enjoyable experience was the role of high school football manager with coaches Belcher, McGrath and Zellner. My brother and I went to the Patriots training camp when we were seven years old and we love football. It was great to win the DCL championship last year. I have also learned a lot from participation in the Principal's Advisory Council with Mr. Sills who is the coolest man in the school. I also served on the Superintendent's Advisory Council and have been the head working classmate.

There are too many people to thank for getting me through life. Thanks to my teachers for passing me in classes, I appreciate it. Especially you, Captain and Chief. To the best friends I could ever ask for: I love you all, I don't know what I'd do without you. Thanks to my parents for dealing with me and loving me no matter what. I know it's not always easy but you've both done it amazingly well. Dell, thanks for being a jerk to me when I was little so I'd know how to take care of myself. Jkk. You're awesome and everyone knows it. Thank you so much, Luca, for absolutely everything. You're my best friend and the most amazing sister. I don't know any other college student who would get up at 5:30 to skype with her sister on the first day of senior year. You've made my whole life and I can't thank you enough. To anyone I forgot: I'll thank you if you don't mention that I forgot you.

Nicholas Berman

Thank you, Mom and Dad, for providing me with love and support, and for making me go to bed at a reasonable hour. I love you both very much. Thank you to all the teachers who have taught me to love learning, especially Ms. Sallee, Mrs. Alexander, Mr. Sheinfeld, and Mr. Venkatesh. Thank you, Dr. Ryan, for all your help. Finally, thank you to all my friends for making me laugh!

I have thought about whom I am going to thank with these mere 175 words and I can't decide. So, I'm going to stereotypically thank everyone possible. I would like to thank every single member of my family, Sam, my parents, all my teachers, Sundertal, Donnelly (DON BON), Big Griff, Bosch, my friends, P-Co, T Baby, Bad Ass B, A-bomb, Bergman, Weaveman, Mac computers (not PC's), the Honda Pilot, my XBOX (Specifically Nazi Zombies), my guitar, P90X, the BUCS, X-Block, garbage men, policemen, the guy at taco bell, every person that has either attended BHS or lived in Bedford, America (and I mean the real America), George W, BK, Wendy's, Taco Bell, the ever so tasty Micks, Flo Rida (Specifically for the greatest song of all time, Low), Juanes, Ben Rose on BHS Live, life without thinking about consequences, never losing at bowling or risk, Coach Diz's fresh kicks, JOE KIM (How could I forget him), things that don't even phase me, ping pong, the entire tennis team, and most of all the dollar menu.

Wow, Senior Year. It's been a crazy ride, and there are a few people I'd like to thank. To my Mom and Dad, thank you for sheltering me, supporting me, and raising me to be the person I am today. To my teachers-it's been real. To Mr. Felker-Thank you for nurturing my love of music, and thanks for the helping me be a drum major - I'm honored that I was even chosen. To Mr. Boschetto-your level 7 history class was hard, but the DC trip and Psych make it worthwhile. To my friends: you know who you are. Anyone I've played music with, had class with, or just chilled with has helped to change my life, no doubt. Crew, NHD, 2009 Eurotrip, yearbook, AFS, etc. - It's just been amazing. Then there's the marching band.... You guys are an awesome bunch of people. Brye, Carl, Holly, Dela, Aryn, Robby, Chris, Akhil, Areen, and Javvy, just to name a few-you guys are legit the most amazing thing I've ever been a part of. May you always have Eyes with Pride!

Mom and Dad, I can't thank you enough for supporting me throughout my high school years. You guys have been and I know always will be there for me. Allie, you're awesome. I know I can always come to you for advice if I need it. It's been nice being in high school with you for three years. Good luck and have fun your senior year! I would also like to thank the Ab's (Malik, Luke, Diz) you guys have been like brothers to me. We've had countless good memories + know there will be many more to come.

For all the roads you come upon, never regret taking them, because each decision will hopefully make you a better, stronger person in the long run. To all the people who got me this far, to my teachers, family, friends, and classmates, I thank you. You have all molded me into the strong open-minded individual that I am today and all I can do is thank you. I am sad but also ecstatic to see my run in the Bedford Public School system come to an end; and I can finally stop writing "K-12" on school forms. I hope every one of my classmates looks happily forward into the coming years and I wish you excel at whatever you wish to do or become.

I want to thank my friends and family for making high school a more enjoyable experience. I seriously could not have done it without you guys. As Art Buchwald once said, "Whether it's the best of times or the worst of times, it's the only time we have." Live it up, peeps.

I want to thank all of the great teachers I have had at BHS, especially those who inspired me to do my best work, not just for a grade but also for the experience. To my family- you are my best friends, and I couldn't ask for a better mom or brother. You are always there for me, and I can't thank you enough for everything that you have given me. I would also like to thank my amazing friends, who I couldn't live without. We've had so much fun together, and you have all made me into a better person. "If ever there is tomorrow when we're not together, there is something you must always remember. You are braver than you believe, stronger than you seem, and smarter than you think. But the most important thing is, even if we're apart, I'll always be with you." – A.A. Milne.

I have to start this by simply saying thank you to my family, in particular my mom and dad. Thank you for putting up with me all these years. Then I need to go on to say thank you to my brother Chris and other older brother in Alex Russo. Chris, I haven't said this enough. I'm happy you're my older brother and thankful for it every day. I love you. Russo thank you for all those years of guidance and advice when Chris didn't know what to say. Thank you Grandma, you mean the world to me. Thank you, in particular, to Meechie, Big Will, and Kimble. The three of you have been the best friends I could have ever asked for and have changed my life in small but important ways. I would like to extend this thanks to all the members of my track teams through the years and all the other people I call my friends. Thanks again everyone for all the help you've given me.

Jessica Doucette

Words cannot articulate how thankful I am for my family, friends, and teachers. I could not have made it this far through my life without your love and support. To my friends: Vanessa Carlton's lyrics say, "In these broken times it's so easy to forget, so I sing to remind upon my shoulder you can rest, cause I'll always give you my best." I like to think that life is like outer space; constant movement of planets, comets, and stars and sudden changes that are out of anyone's control. To counteract the spontaneity and action, we have friends who are like gravity; we keep each other grounded. Without you as my gravity I don't know where I would be floating off to. I love you all so much and wish everyone the best!

To Marching Band for keeping me in the music. To Ms. Amy for showing me how just moving my feet can free my soul. To Robby for being my shoulder to cry on, my laughter provider, and my number 2 speed dial. Broken for being the only one I could talk to when I was feeling down. To my friends: "The American Dream" and "The American Dream" for helping me out of my shell and showing me the world. To Dad for those big hugs at the end of the show and the amazing days at the football games. To Scott for teaching me how to love every person I meet. To Mom for being my inspiration to never give up and to always show people the best of you. "Matter what it takes" everyone who has impacted my life. Thank you for everything. "Truly great friends are hard to find, difficult to leave, impossible to forget." I'll never be able to or want to forget you.

"Nobody can go back and start a new beginning, but anyone can start today and make a new end!" From kindergarten to senior year I couldn't ask for a better school experience. I want to thank my family by helping me get through life with little struggle. Mommy, You helped me through the years of life when I needed you; you were always there for me to count on when I had hard times. Daddy, The advice you gave me really helped and guided my way through reality, you were also there for me when I needed you. Deric, your a wonderful big brother and you taught me a lot, you helped me look at life in so many ways that I couldn't imagine. Derek II, the best little brother ever, you always make me laugh even when I'm really upset, you help me get through my rough days. Grandma & Grandpa, Thanks for always believing in me when I didn't believe in myself. Thanks and I love you all so much.

Throughout high school, I have had many influences in my life beginning with my parents. I will be forever grateful for their constant love, support, and endless encouragement. Their support, especially during my gymnastics practice, watching soccer games, track meets, dive meets, and supporting my late night projects, have helped me reach my full potential. While their advice and high expectations might not have always been appreciated, I now realize it was one of the contributing influences that helped motivate me. A huge thanks goes to my number one fans, my grandparents, and my uncle, for all their love and support of everything I do. To all my coaches, who supported my dreams and reinforced the importance of hard work and discipline, patience and teamwork, I thank you. Last but not least, thanks to all my friends for simply being there, accepting me for who I am, and taking this crazy journey with me.

"Life is a journey not a destination" Ralph Waldo Emerson. I think high school as the last leg of the first part of my journey. I've learned a lot about myself over these past four years and I'm ready to move forward. Thank you to my parents, teachers, and friends, for shaping these years and making them memorable. This time of my life has taught me a lot about myself, my family, my friends, and the world around me. I want to thank BHS for playing a role in that. Thank the school's great teachers, staff, and all that I have left to do is turn the page.

First off, I want to thank my family. Without them, I would've never made it. Mom, Dad, and Grandma. Grandma, I love you. Thanks to my football family...Stephen, who I played every year since I joined the team. Mason, Tyler, Justin, and George, who were my friends and helped me through the years. Playing with you guys made football extra special and you're all like brothers to me. Thank you to all my friends who made school worth coming to...Donovan, Aaron, Greener, Sam, Ben, Jess, Luca, Spec, Diz, Jack, Tbars, Mary, NicoTay, Kyle, Brandy, Ed, Ge, Big, and all the other kids. Thanks to my Christian friends and footballers I mentioned already, anyone who made me a happier person - you don't remember I do, the list goes on. It's because of all of you that school was a little less boring everyday. To any teacher who ever taught me anything, thank you for your support and patience. Good to see you in the future and please keep in touch.

Alright, alright so its time for my senior thanks so, Ima lay it down on you real quick. To the Ferro household, Ma, Dad I couldn't have done it without you guys, you plopped me out right into the easy life, and always strived for perfection in everything I do, so don't worry its engraved into me now. You carved the work ethic of a champion into me, and that I will be. Mike, Jimmy, Vegas once I'm 21, I guess you guys weren't so bad after all. To me 20 years from now, if you aren't a millionaire, you really screwed up on the way. That's ok I still like you anyways. Ms. Dresser, as much as I hate LC, I secretly look forward to it. But don't go getting any ideas. Thank you, Stephen, you're my dude, and I know you know what I'm talking about, because I never do. To all my people, the class of 2011, and all the crazy shenanigans that have gone down, "To the nights we felt alive."

I would like to thank my parents. I appreciate all that you two have done for me, even though sometimes it might seem like I take it for granted. Mom, you've been there for me for almost twenty years, and I've learned a lot from you. Dad, I am beyond amazed and thankful for the sacrifices that you have made to provide for my family and maintain the custom of living that we are used to. And I would like to clarify that even though I'm a girl, I'm not a boy, and I'm not a girl, I'm a girl. I will forever be your little girl. For my brother Michael, your big heart and selfless ways give me hope for humanity. For my brother John, thank you for always being there for me through thick and thin. As for Gammy and Grampa, not a day goes by that I don't think of you two. I love you all dearly and each and every one of you has influenced me to become the person I am today.

Over my years at Bedford High School, I have learned so much, creating and wonderful friendships, learning to be a leader, and new friends and had an amazing time. I would like to thank my family, helping me through hard times, staying up late to help with homework and supporting me when I needed it the most. I would like to thank all teachers who guided me along my path, and knowledge for being a good after school, and for making classes exciting and memorable. To all my friends, my cheerful, happy, sweet, hilarious, and wonderful friends a better person and I will always be grateful for your friendship. always said now... I wanted to get out of boring "Deadford". Now it's time to go and I don't want to. I love it here. From Davis to BHS, so many things have impacted me so immensely, especially the Class of 2011. Even if we weren't the closest of friends over the past 13+ years we've spent together you have each done something to help me become who I am. You are incredible and I wish you the best of luck in the future. Of course I'd like to give a special thanks to a few people. Family: Mom, Dad, Robert, (and the rest of the lovino's/o'Connor's) for helping me with spelling quizzes, late night projects, and getting me to school on time. Thank you for being there for me. Ms. Kornfeld, you are an incredible teacher. Thank you for making history a subject I love and want to pursue as a career. To friends: thanks for memories of talent shows, sleepovers, bonfires, hood/sonic runs, seashores, dances, chuchu, sparkalissas. Thanks again and good luck!

I'd just like to thank my family and friends for everything. I just love you. Thank you Dad for singing in the car with me, wearing spandex around town on a regular basis, teaching me more than I ever thought I would know, and for always being right across the hall when I needed you. Dear Emily,

This note will not be able to share my deepest thanks or love to you because those feelings cannot be simply put into words. What I can say though is that you've left the deepest and most profound impact on my life and for that I thank you.
Forever and always loving,

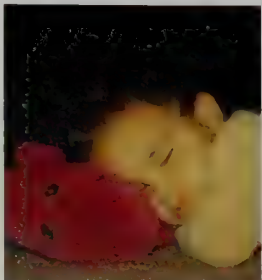

Aaron Kinch

I'd like to thank the people whom I couldn't have handled high school without: my family. I know I may complain and drag my feet, but you never gave up on me, and if it weren't for the constant pushing, I wouldn't be graduating this year. Also, there are certain teachers that I am glad I've gotten to know: Mr. Rose and Mr. Niven. Mr. Rose, you know how important a role you've played, I don't need to go into detail. And, Mr. Niven, you are by far the best teacher I've ever had. I've never had such a good time in English class, and I'm glad you were my teacher. And, fast but not least, my friends. I wish I had enough space to talk about each of you in depth, but 175 words isn't much. You guys have always been there for me, and you know who you are, I can't thank you guys enough. So long Bedford High School, you'll be missed. Derrnis.

To kick things off, I would like to thank my parents. They are the best parents in the world and everyday I am thankful they are always going to be there for me no matter what. Second, I would like to thank my brother for always having my back on everything. Next, I would like to thank every single one of my friends. Without them I think I would go absolutely insane. But like said at the beginning, thank you, parents, brother, friends, anything and anyone in the world. My parents are the reason why I am who I am and I am unique.

Mom and dad - thank you so much for your limitless encouragement, patience, and just being there for me. I know sometimes I can be a major pain, but luckily things always seem to work out in the end. Thomas - my brain is now fully crammed with fun, not-so-fun, and occasionally downright silly memories of time spent together. I still have no idea how you managed to grow so big, but regardless it's been a lot of fun having you as a younger brother all these years. Grandma - I think it goes without saying that my life would be infinitely duller if you weren't a part of it. All of my teachers - thank you all for opening my eyes to so many new concepts and ideas. I've really enjoyed my 4 years at BHS. All of my friends - hopefully by the time any of you read this I'll be accepted into college and never have to see any of you ever again... ok, no. Let me try that again. Bedford really wouldn't be the same if it weren't for all of you and I'll definitely miss you next year. Good luck in the future.

Flake Oldest in the high school, wow it feels like just yesterday I was enjoying nap time in preschool. I could say that my entire life has been awesome, but these past four years have been the best. It didn't come easily though, every step I've taken my family and friends were always there to support me and help me out. Thanks MOM and DAD for both loving me and helping me grow up to be the person I am today. Thank you KATIE for being a great sister and friend, even though I don't see you that much since you're in college, I still thank you. Lastly, thanks to all my friends (you know who you are), for helping me make high school an amazing experience.

"The greatest pleasure in life is doing what people say you cannot do." First thanks goes to God himself, for allowing me to come this far. I also want to thank my family, for supporting me whenever they could. A lot of thanks goes to my Bedford & Metco families. Being in this program so long has taught me a lot, whether it was educational or social. It has helped me become the person I am today and will be in the future. The friends I've had through our ups or downs, no matter what, we are still here standing together & growing into the amazing people we will become. High school is what builds you for the future, sometimes in the classroom, principals or the unforgettable teachers, but best of all, the family I gain as I move on to a better and bigger life. I won't forget my years at Bedford High, & I hope to always have my "sisters", "best friends" and "family" no matter where I go. Love, Ashley Michell.

I couldn't give thanks without appreciating my large, unique, and loving family. I've been blessed with a uniquely large family one combined with McKenna and Sam Petri and their dad Vic, and then my mom, and brother and sister. I really love each of you guys so much in a different way and I apologize for the hard things I have put you all through. However I have to give the largest thanks to my mom and Vic, I couldn't have asked for a more loving, life-altering, and inspiring set of role models to look up to, you guys have been there for me when I needed you most, you were my best friends. In less than two full years I have gained friends that will last a lifetime and have learned a lot about myself and other people. You never stop growing as a person until you shut your heart from others. I want to give thanks for everyone who has taught me to have an open heart, for I am still growing.

My life has been pretty awesome so far and it's mainly because of my family. Thank you Mom for all of the love and support. You taught me how to love and care, how to treat others and how to bake cookies. Dad, thanks for being so incredibly cool. You have shown me what it means to live your life in the best possible way. You have taught me patience and helped me realize that every action should be made with kindness and concern for others. I was raised on the belief that true love is the desire to give without thought of self but only of others. Mom and Dad, I know that you have always been there for me giving to me in every way you could, through love, lessons, moralities, attention, and wonderful homemade food. I love you so much and am so grateful that I have such absurdly amazing parents.

As I look back on these years in high school I see how far I have come. I would like to thank my Mom for always being there and Dad for always being up for helping me with that one last problem on my homework. Thanks to Matt and Mike, my older brothers, for all that they've taught me. Thanks to all my friends, who have made high school an enjoyable experience.

"Procrastination usually results in sorrowful regret. Today's duties put off until tomorrow give us a double burden to bear; the best way is to do them in their proper time." (Ida Scott Taylor). Throughout my lifetime I've always procrastinated no matter what it was whether it was school work or chores around the house. Even with this procrastination I've had the support of my family and friends. I want to thank all my teachers for everything they've taught me, my friends Marcos, Desiree, Sophie, Jessica, Manny, and everyone else for all the great times we had no matter what we were doing. Most importantly I would like to thank my mom and dad for everything they've done for me and always being there whenever I needed you. No matter where life takes us I hope all of you have a good future and stay in contact. Thank you everybody for everything we've done together. Once again THANK YOU MOM and DAD for everything, love your son Joseph Pompa.

Gabrielle Queenan

First off I'd like to thank my family (Mom, Dad, and Evan) for always being there for me, pushing me to be my best, and supporting me in everything I've done. But mostly, I want to thank my friends for making this the best four years of my life. As a class we've all been through so much together, and at times it's been pretty tough but somehow we've survived. To my ladyeers on the tennis team, you guys have made these four seasons of tennis amahzing (SARS, cappy pappy, syb). To my teammates on the volleyball team, good times bucs, this has been a crazy four years!! (KF, AVW, BW, JC, EP) To my BEST FRIENDS EVER, Tor, Ky, Alice - I honestly don't know where to begin. I can't even imagine school without you, but you guys know we've had some incredible adventures and I'm sure that wherever the hell we end up going we'll always remember the good times. So thanks BHS for everything, it's been one crazy ride.

Molly Siegenthaler

Mom & Dad- whether it was editing my papers or giving me advice, thank you for always being there. I truly appreciate everything you do for me; I wouldn't be half the person I am today without your support & guidance. I love you. Em-Nora that was rude & for always being there for my Ramona Quimby moments. Amy-That'd be great... & endless memories in The Rugged Bear. You guys are the most amazing sisters & role models I could ever ask for. Thanks for teaching me so much about life; I love you both. Friends- Thanks for the laughs, crazy nights, great advice, & being there through it all. Julie- love our inseparable summers & creeping; thank you for always being right and giving me the advice I didn't always want to hear. Mich- for being with me since before preschool & so many fabulous memories along the way. Laura- for being my twin, French buddy, staring & always feeling the same way. BD, GB, TDLP, AA, AT, CS, KR - thanks for everything, love you.

I would like to thank my mom for supporting me throughout my whole life and being there for me when I needed her. Also other family members that were there and who wants me to be successful in life. I would like to thank Mr. Sumner and Ms. Jasmine from my program for giving me many new experiences and opportunities and the prep related classes that were helpful for school. They pushed me to do well and make sure that I achieved to the best of my ability. And thanks to all my friends: Ariel, Renee, and Ashley etc. for having this journey with me.

I would like to thank all my friends sincerely because high school would not have been as good as it was without you guys. Also I would like to thank my parents for supporting me these four long years; without them I surely would not be on my way to college. High school was a learning process for me, both educationally and socially, and because of my teachers, peers, and parents, I feel like I am prepared to take the next step in advancing my knowledge of the world. As Kurt Vonnegut said, "New knowledge is the most valuable commodity on earth. The more truth we have to work with, the richer we become."

Paul Sobchenko

"He who has a 'why' to live for can bear with almost any 'how'." - Friedrich Nietzsche

First off, thank you Mom and Dad for guiding me through school and these first seventeen years of my life. Your internalized values that you have taught me have laid the foundation for the person that I am today. Thank you for instilling an appreciation and desire for education, hard work, and self-betterment in me. Second, thank you to my teachers for their unrelenting dedication, hard work, and time and effort that they put forth to teach me. A special thanks to Mr. Sunderland for bringing National History Day to Bedford High School, being a fantastic leader of the project, and for facilitating the intellectual growth that characterized my sleepless junior year. Finally, thank you to my friends for staying by my side and keeping me entertained.

First to my parents, my stepfather, especially my mother you really pushed me throughout my high school career and supported me throughout the bad and good times. Thanks to my father for being a good mentor in my life and always having good advice to keep my head on straight. Scotty you've always given me advice on football to keep me going and to push myself. Ms. Sav, you pushed me more than any teacher has ever pushed me, I've had a wonderful 4 years with you. Thanks, Mr. Zeline all the good times we had as a student/ teacher and player/coach "they climbing in yo window". Thanks Dajaan, & Justin we had good times. Thanks Steve, Taylor & Frankie for the friendship. We had our fun times on and off the football field. Nick, you've been there since day one and will always be a true friend. Coach Belcher, though we had our rocky times, these last 3 years, it's been a good one. Thanks to the cute girls across the hall from my locker (lucky Taylor).

First off, I'd like to thank my family for helping me get through the last four years.
Mom&Dad: Without you, I would be lost. I know I may not always show it, but I really do appreciate everything you have done for me. I'm so fortunate to have you as my parents.
Allie: You are an awesome sister. Even though we fight sometimes and I may not text you as much as you would like me to, but I consider us to be extremely close and I hope that never changes.
And last, but certainly not least...
Bryan: You really have made me a better person. Thanks to you, I realize how lucky I am to have a family like mine and that I deserve to be happy. You truly are my best friend.

Amanda Szlosek

I've made it this far in life and I could not have done it without the help of all my friends and family. Thanks guys! I love you all so much! I cannot wait to start this new adventure in my life and I know you all will be there supporting me. You guys have made all these years ones to remember. So again, thank you, you guys are the best! Lastly, I want to say CONGRATS 2011! We did it. :)

Mom, Dad, and Jeff I cannot even explain how grateful I am of you. Mom, you have been an incredible influence on my personality and how I live my life. Dad, thank you for coaching me in soccer, basketball, and baseball, it made such an impact on me having such a wonderful coach, and for being an incredible role model. Jeff, I couldn't ask for a better brother. We share amazing jokes, play sports, and I just have countless great memories. Anne, you have made my high school life absolutely amazing, and I could not have gotten through it without you. Thank you to all my teachers, especially Sunderland, my teammates, and coaches, especially my baseball and soccer coaches the past 4 years. To my history fair group, Ben, Spec, Will, and Alex, I would not have wanted to go through that process with anyone else and to everyone else who has made an impact on me, without any of you I would not be the person I am today.

Sarah Taylor

Wow. I can't believe four years has gone by just like that. It feels like just yesterday I was leaving for the first day of freshmen year. To start out, if it weren't for my family, friends, and God, I don't know what I would've done. Mom and Dad, if it weren't for you always pushing me to do my best, I don't know how I would've made it through the past twelve years of school. Also, I would like to thank all my friends, because they really have always been there for me, and I will always be grateful for that. Finally, I believe that God has helped me get through even the hardest times during these years, and if it weren't for Him, I don't know where I'd be. I love you all, thank you so much for everything.

Ariana Terrasi

I'll always be there for me, everything I do. You always have the best advice and have made me the independent and outgoing person I am today. Dad- From preschool crafts to dyeing my (and Mackenzie's) hair pink at 2AM, your creativity has rubbed off on me over the years. I really appreciate all that you do. Anna- you are a true best friend and I love how silly/goofy we are together. I know you always have my back. Courtney- "Ms. TotallyFlex", our connection since kindergarten has only grown stronger and you will always be my "go-to" person for venting. Erica- From dance parties to celebrating our sweet 16s, I always anticipate an awesome time when we're together. Julia- Thanks for being the honest, reliable, "real", understanding, funny, and encouraging friend that you are. Seniors- JULIE, BECCA, MOLLY, LAURA, ALLIE, MICHAELA, and all my other senior girl and guy friends, thanks for all the fun times especially at pool parties and "gatherings" over the years. I will miss you all!

Carl Thrasher

I just can't believe that I made it. It's been one helluva ride. I never would have made it if it weren't for my family. Mr. Mott and Mrs. Mott, thank you for everything. They kept me on track and worked tirelessly to help me through school. Thank you for everything you've done for me you guys are awesome and love you both. Nattie you're the best lil sis a kid could ask for. I'm going to miss you next year. Mr. Berlino you're my dude thanks for everything helping me through my less than perfect freshman year and just being a good guy to me. The lunch bunch, boys we have been together since the beginning so many good times inappropriate to tell in this space. But you guys are like brothers to me thanks for being my absolute dudes through all this crazy stuff. Guys it's been really real.

Jessica Tittle

Thank you to everyone for being there and helping me survive these last four years. My biggest thanks goes to my parents for helping me through the ups and the downs. It's been a great experience. I've especially loved playing volleyball with everyone- special shout out to Anna, Gabby, Marc, Kylie, and all the other players I've had great times playing with! Thanks to everyone that managed to keep the marching band alive, especially Holly, my co-conspirator/ flag-twirler since 8th grade. Also, drama club and TOP has kept me entertained since freshman year, I'll miss our craziness! Of course, I also have awesome friends to thank, like Kaitlyn, Jess, Katie, Natalie, and many more. Julia- thanks for always being there and for your family always being willing to take me along on your adventures. A final thanks to all the teachers that helped me to not fail. Congrats class of 2011!

Rebecca Waghorne

First, I want to thank my mom! I love you! I also want to thank my teachers throughout high school. I have learned so much! Finally, I want to thank all my friends, but especially my best friends in the world: Kylie, Gabby, and Alice. I feel like I have known you forever and I can't imagine life without you next year. You girls are my sisters. I love you! I wish you were sweaters, so I could take you with me to college next year!

Benjamin Waldron Feinstein

"Life is 10% of what happens to me and 90% of how I react to it." First, my Mom and Dad, because you guys taught me how to react to everything that life has thrown at me during thirteen years of school. Your advice and values have molded me in the person that I am today. Thank you to Hannah for filling my junior and senior years with unforgettable memories. You made the last half of high school significantly better than the first half. I can't imagine getting through it with anyone but you. Thank you to Nick, Spec, Will and Alex for an unforgettable senior year experience and the incredible house that went with it. Thank you to my friends for being an endless source of laughs, amusement and support. Thank you to my teachers for showing me how and why we learn. And, lastly, a thank you to everyone for making any problem solvable with a combination of humor, insight and compassion to the people around me.

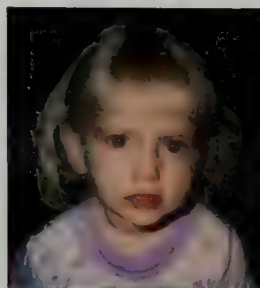

Victoria Waldron

To my family, especially my parents, who have guided me my whole life to where I am now. To Stephen, who has made me laugh harder than I could ever imagine. To Anana, for being the most dependable friend I could ask for. To Courtney, for somehow understanding me better than anyone else. To Monica, whose friendship has only made me a better person. To all of my fellow Lady Bucs [EH AH GQ BW KF EP JC JR MC TP MS LP], with whom I have shared some of my best memories of high school. And to Michael and Bnana, who've been there since the very beginning. Should I write an autobiography one day, I probably won't write any of you out of it.

"Don't frown because it's over, smile because it happened." If you've ever spoken to me in your life, thank you. For at least a second, you probably made me smile. If you have ever made me laugh (which might also be everyone I've ever talked to), I am extremely glad you are alive. You don't need senior thanks to tell you that. So to everyone in this school, mom, dad, strangers on the street, Lex, Mike, Dan, the soccer and ski teams, BF girls, and that crazy bum on Boston Common who predicts Red Sox scores, thank you. You have contributed to making me the person I am today and made my life so far exceedingly happy.

Benjamin Weaver

If you are reading this senior thanks to see if you're in it, stop. Move on. Everyone who has ever associated with me has in some small way helped me become a better person and thus deserves to be thanked. The road through high school has been full of its ups and its downs, and I certainly would not have made it through without the wisdom and encouragement of my peers, family, and faculty alike. Hopefully through their guidance I have arrived at a higher point than where I started four years ago. Most importantly, thank you class of 2011. We've grown together since we were toddlers and in 23 years I'll look back to these years with a bald head and have something to smile about.

Renee White

First, I want to thank God for sparing my life to see my senior year of High School. I want to thank my family for their love and support. Also my teachers and counselors who guided me through my high school career. Especially Ms. G., I love you. Thanks to all my Metco, Bedford, and Base family. For my friends who have been with me through the years, special thanks to Ariel, Jessica, Ashley, Coretta, Yovanna and Cullen, I love you all. I have mixed emotions - part of me is sad to leave, but I will be moving on to a higher level in my education. Each of us has his or her own toolbox; it's full of memories, experiences, accomplishments, and dreams. As we go off in different directions, remember the only one who can close your toolbox is YOU. There will always be room for more tools, more memories, new experiences, greater accomplishments and yes, even bigger dreams. I'm going to truly miss Bedford High but thank you all for my success.

MOM (and LUCY) - Even though we butt heads pretty much every day, you're the greatest mom I could ask for. I am so grateful for everything you have done for me, whether it be getting me to baseball practice, helping me with my homework or working hard to provide for our family. MRS. GIUSTI - Every day I came in you would always help me no matter what, and for that I thank you. Without you, I'm positive that I would not have made it through high school.

MRS. FORD - Thank you for putting up with me and helping me succeed these past four years.

MR. ALPERIN - It's been nice to have someone to talk to about life, music and sports.

TYLER, JOSH, JUSTIN, DYLAN, NICOLE and MICHAEL - You guys are unconditionally my best friends, and I just wanna say thanks for always having my back and liking me for who I am.

The only thing we can do is play on the one string we have, and that is our attitude..." Thanks for... Mom: learning, loving, laughing & growing together; teaching me about the realities of the world, meaningful conversations & always willing to give me a hug. Dad: sharing a creative mindset; teaching me how to approach life from different angles. Evan: being my opposite, dealing with sasha & fergie all these years, & being an example of how to just live life. Leah: sharing an indefinable bond; pushing & challenging me. Friesen girls: your guidance & quality time. Ms. Ford: watching me grow & develop. Teachers: exuding passion in your work & encouraging students to learn (social studies & english departments). Friends: in one-way or another I have learned something from each & every one of you; silly to deep conversations; the connections I have made & for the spontaneous laughter.

Cody,

We have watched you take your first steps, your first dive into the pool, your first trip in an airplane, your first dance, your first broken heart, your first up to bat...we have watched with great joy and pride, every baby step of the way...We have seen you drive away in your new car for the first time, and stand up to bat in a stadium made for super heros ..like you. The pride we feel in your carefree ways, and your good heart, the way you made us laugh through out the years...and of all these things two things stand out..two things you have said to us over and over...we will never forget "it isn't what it looks like", when your stealing the last cup cake, and "I do what I want" ..codyisms!

As you go off to a life we can only hope is amazing...remember..never be blue...we love you!

Steph, you are an amazing kid - bright, funny, athletic. Seeing you grow up has been one of the greatest joys of my life. You are very caring - last Mother's Day was the best ever. I love you very much and am really proud of you. I know you will exceed in college. Have a blast.

* To the beautiful baby who came into this world with such spirit, may you continue to laugh, inspire and lead with vigor.

* To the toddler who wouldn't claim victory until she could ride AND "push off" her bike without help, may you recognize that your tenacity will always serve you well!

* To the girl who has been loyal and compassionate, may you continue to cultivate and enjoy the relationships that really matter.

* To the teenager who worked hard, juggled much and cared even more, may you understand that your dedication to seeing things through will keep on bringing you success.

* To the young woman who has grown in so many ways and has been an amazing daughter and sister, may you forever know how much we will always be here for you.

We love you more than you can imagine!
